UVisit & UMatch

- UVisit provides support for NCAR and UCP scientists and engineers to come to universities to participate in collaborative research, teach a class or workshop, give lectures, provide support to facilities...

- UMatch helps the university community find potential collaborators within NCAR and UCP. UMatch was rolled out with a new web interface [https://president.ucar.edu/university-relations/umatch](https://president.ucar.edu/university-relations/umatch) and greater staff participation.

- Information on both services can be found on the UCAR University Relations webpage or from the UCAR home page just search UVisit or UMatch.
