NCAR Update and Future Directions

Tuesday’s Question Prompts for Discussion

The starting point for discussion breakout sessions on Tuesday afternoon will be three question prompts, developed by the NCAR Executive Committee:

1. The expectation for NCAR is to be an institution that leads scientifically and intellectually, while also providing strong service and support of facilities to the broader community. In your view, what are the most important contributions that NCAR makes or should make in each of these areas?

2. What do you consider to be the “core” activities that NCAR must continue? What should NCAR stop doing?

3. The capabilities of universities have changed over the past decade. How does this affect what you and others in the university community need from NCAR today?
